

Emily Waters

Currently working as a Graduate Lighting Artist at Industrial Light & Magic; I also have experience in marketing and retail. I am hard-working, determined and enjoy working well in a team to achieve goals. I appreciate the visible difference and sense of purpose from completing a project well.

EXPERIENCE

Graduate Lighting Artist, London - Industrial Light and Magic

September 2025 - PRESENT

Working in large and small teams I have been working on shots from first pass to creative approval. I spend most of my day between Katana and Nuke; lighting to integrate assets into full cg and live action plates then utilising deep and 2D compositing to create a slap to present my renders.

Communications Assistant, London - Arts Students' Union

September 2023 - September 2025

Attending various student union events, I capture video and photography content which I later edit for the student union social media channels. I successfully maintain a strict and well managed timetable to balance my university work, events and editing. I have received positive feedback about my quick turnaround on multiple occasions.

3D Artist, London - Fromm Studio

May 2024 - June 2024

I made a collection of 3D animated assets for use across their social media from character conception to finalised asset.

Photogrammetry - Motion Capture AI - Character Design

Student and Digital Ambassador, Wimbledon - University of the Arts

London

October 2022 - August 2025

As Digital Ambassador I work closely with the marketing team to record and edit promotional videos for the university Instagram page and newsletter.

As Student Ambassador I represent the university at Open Days, give tours and help run workshops. I was also the sole student representative for my university at the Create Your Future Manchester UCAS fair two years in a row.

Social Media Assistant, Remote - University of the Arts London

June 2023 - August 2023

I worked over the summer to support the Senior Marketing Assistant with all the Wimbledon, Camberwell and Chelsea social media sites. I mainly scheduled MA SHOW 2023 content but later ran some of my own smaller campaigns too.
